Complete ID solutions

The Databac Group supplies more than card accessories alone. A comprehensive range of ID solutions is available, from cards and photo ID software to visitor and event registration systems.

■ ■ ■ Card accessories

As a specialist manufacturer of ID cards and products, the Databac Group recognises the importance of card wearing and other peripheral accessories. This is why we manufacture and supply over 200 different products to store, protect, display and dispense cards.

More than that, each accessory is designed to carry out specific functions. These 'intelligent' products have unique features to suit their application – breakaway lanyards snap off when pulled to protect hospital staff; yoyos keep staff's hands free; magnetic badge holders prevent damage to expensive uniforms. Many accessories like lanyards and yoyos can be personalised, for conferences, events or corporate branding – all to exact specifications and with a fast turnaround. Custom products can be also designed and produced, such as luxury presentation boxes to hold collectable membership cards.

Continued research and customer feedback ensure ongoing development in accessory design. To fulfil its mission to provide 'complete solutions for identification', the Databac Group has carefully compiled a comprehensive range of accessories which ensure that cards are securely stored, difficult to misplace and comfortable to wear.

ID cards, badges, vinyl
pouches and bureau-
printed cards

■ ■ ■ Rigid card holders

Rigid card holders are a smart way to protect and display ID cards, enabling them to be read quickly and easily by reading systems. Used with magnetic stripe, proximity, contactless smart and other cards, the holders are made from transparent and coloured plastics. A variety of clips, chains and lanyards can be used, which are supplied separately.

PROXIMITY OR MULTI-CARD HOLDER

Code: IPC-91

Portrait or landscape card holder suitable for use with all proximity and Wiegand cards. Alternatively, this holder can carry up to three standard credit cards. Colour: opaque.

CONTACTLESS SMART CARD HOLDER

Code: IDS-90

Transparent, landscape holder specifically designed to hold credit card sized, contactless smart cards. The holder is supplied in two parts – front and back. Once the card is inserted, the card holder locks shut and cannot be reopened without physically breaking the plastic.

ENCLOSED CARD HOLDER

Code: ZU-1401

Transparent, landscape holder which protects both the front and back of the card. The holder features a thumb slot to allow the card to slide in and out from the side.

ENCLOSED CARD HOLDER

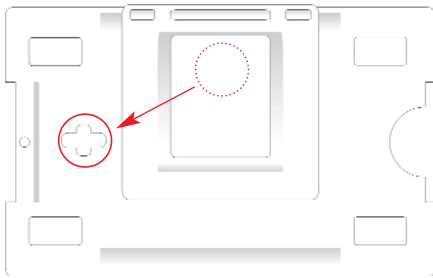

Code: IDS-68

Transparent, landscape holder which protects the front and back of the card. The holder features an oval aperture to slide the card in and out from the side.

Black / white cord

This polyester cross-braid cord is designed specifically for use with AC-908 holder. Length: 762mm. Code: NCBk (Black) NCW (White)

Innovative swivel fixing allows the clip to be attached with ease in both landscape and portrait formats (AC-908W/Bk)

OPEN-FRONTED CARD HOLDER WITH INTEGRAL PLASTIC CLIP

Code: AC-908W (White)
AC-908Bk (Black)

Portrait or landscape credit card sized holder features plastic clip which attaches to the holder using a swivel fixing (see diagram). Integral slot and holes are built into the holder for use with clips, chains and nylon cords.

OPEN-FRONTED PORTRAIT CARD HOLDER

Code: IDP-64V x (x=colour code)

Portrait credit card sized holder with thumb slot at the bottom edge for easy removal and insertion of card. Colour codes: W=White, Bk=Black, R=Red, Bl=Blue, Y=Yellow, Gy=Grey, Gr=Green, N=Natural.

OPEN-FRONTED LANDSCAPE CARD HOLDER

Code: IDP-64 x (x=colour code)

Landscape credit card sized holder with thumb slot at both sides for easy removal and insertion of card. Colour codes: W=White, Bk=Black, R=Red, Bl=Blue, Y=Yellow, Gy=Grey, Gr=Green, N=Natural.

ENCLOSED PORTRAIT CARD HOLDER

Code: IDS-71

Transparent, portrait holder which protects both the front and back of the card. The holder features a thumb slot at the top to allow the card to slide in and out.

Vinyl pouches

The Databac Group manufactures a wide range of vinyl accessories in-house, including card holders, pouches and wallets which can be used for holding and displaying ID badges, vehicle permits, visitor and other types of passes. Over 50 different styles are available off the shelf. All pouches are slotted/holed for use with clips or necklaces.

OPEN-TOP

Welded on three sides with the opening on the top edge.

DOUBLE-TOP

Welded on four sides creating a double thickness at the top. The card fits into the pocket below the top. The chain holes can also include brass eyelets for greater durability.

DOUBLE-POCKET

These include a second pocket welded onto the opposite side of the pouch, so that it will hold two cards at once.

CUSTOM DESIGN

Databac holds a range of vinyl materials in stock and will manufacture vinyl pouches and products to meet with specific customer designs. Please call sales for further information.

OPEN-TOP TYPE G POUCH

Code: VPG

Landscape – IBM size or up to 86 x 70mm.

OPEN-TOP TYPE H POUCH

Code: VPH

Landscape – credit, IBM or up to 95 x 65mm.

OPEN-TOP TYPE L POUCH

Code: VPL

Portrait – credit, IBM or up to 60 x 110mm.

OPEN-TOP TYPE HMI POUCH

Code: VPHMI

Landscape – cards up to 108 x 93mm.

DOUBLE-TOP TYPE A POUCH

Code: VPA

Landscape – credit card or up to 86 x 58mm.

DOUBLE-TOP TYPE B POUCH

Code: VPB

Landscape – IBM, credit or up to 86 x 70mm.

DOUBLE-TOP TYPE C POUCH

Code: VPC

Landscape – Military or up to 95 x 63mm.

Used with Dataimage Visitor, Kalamazoo, Safeguard and other visitor book systems.

DOUBLE-TOP TYPE E POUCH

Code: VPE

Portrait – credit, IBM or up to 65 x 70mm.

DOUBLE-TOP TYPE F POUCH

Code: VPF

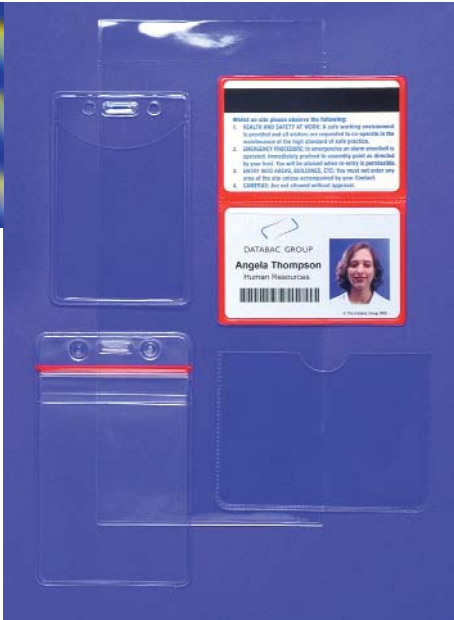

Portrait – credit, IBM or up to 65 x 80mm.

DOUBLE-TOP TYPE BA POUCH

Code: VPBA

Landscape – cards up to 108 x 93mm.

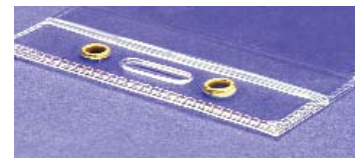

Special and custom pouches

The Databac Group can manufacture special pouches to custom specifications. Examples are (see picture, from top, left) extended length document wallet, coloured credit card holder, Type H pouch with thumb slot, fold-over travel pass holder and portrait pouch with wide thumb slot.

COLOURED VINYL BADGE HOLDERS

All of Databac's vinyl pouches can be manufactured with coloured tops and backs. Double-top pouches can have both, while open-top pouches can have coloured backs only. A wide variety of colours is available, listed below.

Colour coding is ideal for easy identification of access levels, visitors, contractors, etc. For a comprehensive listing, please contact the sales department.

Brass eyelets

Any double-top pouch can have brass eyelets added for additional strength and durability, ideal if the pouch will be used with a chain necklace.

Code: **EYELETS**

COLOUR CODING AND OTHER OPTIONS

- Coloured back** Please add **-xB** to the vinyl pouch code (x=colour code).
- Coloured top** Please add **-xT** to the vinyl pouch code (x=colour code).
- Adhesive back** Please add **-AD** to the vinyl pouch code.
- Brass eyelets** Please add **-EYELETS** to the vinyl pouch code.

Colour codes:

Bk=Black BI=Blue G=Green Gy=Grey R=Red W=White Y=Yellow

Example:

For a **Type B** vinyl pouch with a **green back** and **green top**, the code is **VPB-GB-GT**.

Example:

For a **Type A** vinyl pouch with a **red top** and **adhesive back**, the code is **VPA-RT-AD**.

Example:

For a **Type F** vinyl pouch with a **green back** and **brass eyelets**, the code is **VPF-GB-EYELETS**.

The Databac Group will attempt to match corporate colours as closely as possible.

Adhesive backs

All pouches can be made with a pressure sensitive, adhesive back so that they can be affixed to glass, metal and other surfaces.

Code: add **-AD** to vinyl pouch code

Conference wear and magnetic holders

For conferences, exhibitions and other events, the Databac Group offers a range of card wearing solutions. Just a few are mentioned here, as well as some of the more unusual card holding accessories. Please call the sales department for a complete listing.

Magnetic pocket protectors*

For use with pens, pencils and ID cards, these attach to pockets using magnets, not pins, and guard clothing from ink leakage and wear and tear. Available in white, black and clear.

Conference products

CONFERENCE BADGE HOLDER

Code: NB-001

Pre-formed acetate name badge holder with safety pin and crocodile clip attachment mounted on reverse and white card insert. Size: 89 x 55mm.

CONFERENCE BADGE HOLDER

Code: NB-002

Pre-formed acetate name badge holder with safety pin attachment mounted on reverse and white card insert. Size: 89 x 55mm.

EVENT WRIST BAND

Code: CWB

Strong, bright wristbands for outdoor festivals and other events, colour-coded for access level ID. Available in 21 colours, these can be preprinted.

Credit Card/IBM

Vertical format, with maximum insert size 60 x 79mm, or horizontal, with maximum insert size 79 x 60mm.
Code: JPI637-M (vertical); JPI635-GTM (horizontal)

Government

Vertical format, with maximum insert size 78 x 111mm.
Code: JPI638-M

* Caution: people using pacemakers should consult with their doctor before wearing these products.

Magnetic badge holders*

Strong magnets keep these holders attached to the wearer. The magnets are shielded to protect data on the magstripe.

CREDIT CARD/IBM

Code: J501-N (vertical); J501-T (horizontal)

Vertical, with maximum insert size 67 x 95mm, or horizontal, with maximum insert size 95 x 67mm.

GOVERNMENT

Code: J501-L (vertical); J501-GT (horizontal)

Vertical, with maximum insert size 78 x 111mm, or horizontal, with maximum insert size 111 x 78mm.

THUMB SLOTS

Code: Add -A to the end of the code

Cut-outs in the front of the clear plastic and in the back of the holder for a better grip of the card.

■ ■ ■ Card storage solutions

Databac's card storage solutions allow cards and pouches to be stored and dispensed in an organised manner. Sensitive cards can be held in lockable containers to prevent unauthorised access. The most popular products are listed below; please call the sales department to find out about other items.

ID BADGE DISPENSER

Code: **IDBD-50**

This stylish, chrome ID pouch dispenser will hold up to 50 vinyl pouches or conference wallets. Visitor or contractor passes can be pre-prepared with clip or other attachment for fast dispensing at reception areas and estate offices. Also useful for conference registration areas.

LOCKABLE BADGE CONTAINER

Code: **LBC-500**

Durable, plastic badge container which securely holds up to 500 cards. The container is lockable and comes with a set of two keys. Available in black.

BADGE RACK

Code: **HBR-60 (60-slot)**

Code: **HBR-20 (20-slot)**

Mounted singularly or slotted together to form a bank to store visitor, time & attendance and other cards. 60-slot (2 x 30) version takes horizontal cards, with a panel size of 760 x 230mm. 20-slot version, with a panel size of 311 x 230mm, has 2 x 10 horizontal slots. Supplied complete with wall-mounting kit.

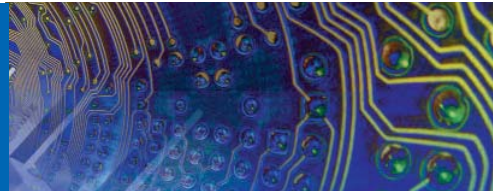

Windscreen stickers / vehicle parking permits

Databac manufactures vehicle permits in a variety of materials, including vinyl and paper. They can be custom printed and can incorporate holograms and security perforations to

prevent copying and re-use. These vehicle permits can be manufactured either to attach directly to the inside of the windscreen or to be displayed within a self-cling dedicated vinyl pouch.

Databac's vehicle permit hangers are produced using a tough polypropylene and are designed to attach to rear-view mirror. The standard permit hanger size is 122 x 70mm.

■■■ ID badge clips and luggage straps

Databac's range of ID badge clips has been developed for use with both smart clothing and overalls. Metal clips feature nylon-lined 'jaws' to protect damage to clothes. Special notches in the clip head itself greatly increase the strength of the metal head, for long-term heavy usage without loss of tension. Plastic clips are suitable for use in areas where metal detection is in operation, while neckstrap adapters keep ID cards facing outwards.

A CLIP

Code: RSCA

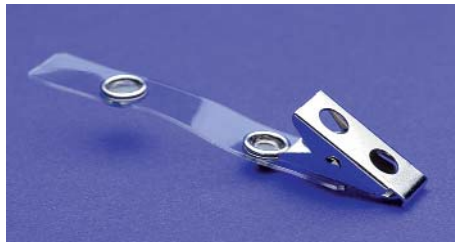

Lever-style strap clip with opaque strap and metal poppers. This superior clip incorporates a strengthening notch in the clip head. Suitable for use on smart clothing.

B CLIP

Code: RSCB

Lever-style strap clip with opaque strap and plastic poppers. As with A clip, B clip incorporates a strengthening notch in clip head. Suitable for use on smart clothing.

C CLIP

Code: RSCC

Crocodile-style clip with clear strap and metal poppers. Ideal for use with overalls.

D CLIP

Code: RSCD

Combined safety pin and spring clip featuring a pressure-sensitive pad (adhesive back) for attaching securely to the back of an ID badge or card holder.

COLOURED PLASTIC CLIP

Code: CPC x (x=colour code)

Lever-style strap clip with coloured head, opaque strap and plastic poppers. Colour codes: W=White, Bk=Black, Y=Yellow, R=Red, Bl=Blue, Gy=Grey, G=Green.

Manual slot and photo punches

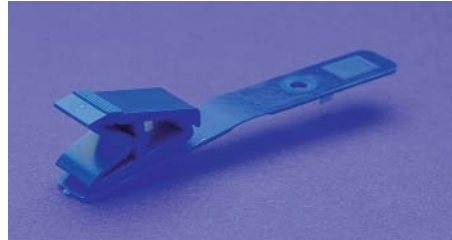

Simple, yet effective, Databac's manual slot punch (Code: HSP001, pictured right) allows users to cut out slots in ID cards and badges to hold clips, chains or other card holding attachments. The device punches a standard slot size of 14 x 3mm.  Photo punches will cut passport photos with rounded corners in a variety of sizes. Electric punches and other sizes are available on request.

ALL-PLASTIC CLIP

Code: ALLPC x (x=colour code)

Designed for metal detector environments, this moulded plastic clip hooks through a slotted ID badge and clips onto clothing. Colour codes: see Coloured Plastic Clip.

NECK STRAP ADAPTER

Code: NSA

Neck strap adapter folds over a neck chain to allow a slotted card to be attached to face directly forwards.

COLOURED BALL CLIP

Code: CBC x (x=colour code)

Simple, cost-effective plastic clip, with a ball head to slot into a hole in the card. Popular for trade shows, it can also be used with the IDP-64 rigid card holder. Colours as CPC.

LEATHER LUGGAGE STRAP

Code: LLSBk

High-quality 120mm strap with metal buckle for attaching the badge to a baggage handle. Black leather.

WRIST-COIL HOLDER

Code: WCI-W (white);

WCI-LBI (light blue);

WCI-Bk (black)

Databac's wrist-coil holder keeps ID or access control cards or even keys at your fingertips, preventing the annoyance of lost cards and keys. Ideal for athletes, swimmers and people who use card readers frequently. The holder features a curly coil which wraps comfortably around the wrist with a clip attachment for cards or keys. Colours available are white, light-blue or black.

From top to bottom:
Plastic necklace,
light-duty necklace,
breakaway neck strap

■ ■ ■ ID necklaces, cords and lanyards

Databac supplies a variety of ID necklaces, neck cords and lanyards. To meet with the EEC directive regarding the wearing of nickel products, all of our necklaces are nickel-free. While the standard length is 710mm, Databac can cut metal necklaces to any length. Many of our necklaces, neck cords and lanyards are available from stock for fast delivery.

NICKLE-FREE NECKLACE

Codes: NPC-3 (light-duty);
NPC-6 (heavy-duty)

Light- or heavy-duty necklace 760mm long with metal tub connector. Made of 3mm or 6mm ball chain which will not harm skin or clothing. Suitable for use with proximity tags.

PLASTIC NECKLACE

Codes: PBC-30 (760mm); PBC-36 (914mm)

White plastic ball necklace (light-duty) with metal tub connector. 760 or 914mm long.

CLEAR OR COLOURED BREAKAWAY NECK STRAP

Code (clear 685mm): J-BS-4

Code (clear 940mm): J-BS-5

Code (685mm): J-BSC-4 x (x=colour code)

Code (940mm): J-BSC-5 x (x=colour code)

Soft, matt strap with metal poppers, which snaps off when pulled as a safety measure for hospital staff and machine operators. In frosty, clear vinyl or a variety of colours.

Colour codes: W=White, Y=Yellow,
Or=Orange, R=Red, LBl=Light blue,
RBl=Royal blue, NBl=Navy blue, Bk=Black,
DG=Dark green, Gy=Grey, Bg=Beige.

Breakaway neck cords have a plug-like connection half-way along the cord which enables it to break loose when pulled, but can be re-connected.

NYLON NECK CORD WITH SPRING CLIP

Code: LAN-SC x (x=colour code)

Woven nylon neck cord which is comfortable to wear. Lifts on and off over the wearer's head with a metal spring clip attachment.

Length is 812mm. Colour codes: Bk=Black, Bl=Blue, G=Green, R=Red and Y=Yellow.

LANYARD WITH DOG CLIP

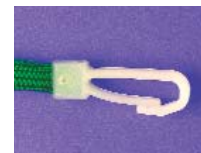

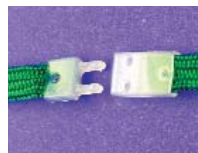

Code: LAN-DC x (x=colour code)

An attractive woven nylon neck cord which is comfortable to wear. Lifts on and off over head with a dog clip attachment. Length is 812mm. Colour codes: Bk=Black, Bl=Blue, G=Green, R=Red and Y=Yellow.

BREAKAWAY LANYARD WITH NYLON CLIP

Code: LAN-BW x (x=colour code)

This flat, woven lanyard has a special 'breakaway' feature and comes with a nylon clip attachment, as pictured below. Width is 8mm. Length is approximately 900mm. Colour codes: Bk=Black, Bl=Blue, G=Green, R=Red, Y=Yellow, W=White, Pk=Pink, O=Orange, FIG=Fluorescent green and FIBl=Fluorescent blue. Custom colours can be provided on request.

■ Custom-printed lanyards and ribbons

Lanyards and ribbons are a popular method of displaying ID badges and event passes. Databac's varieties can be over-printed with logos, text and other graphics for corporate and event branding. For maximum choice, Databac provides a range of materials, attachments and printing techniques and, on certain products, an unrivalled turnaround.

PERSONALISATION SERVICE

For corporate or event branding, Databac will print text and graphics onto its neck cords and lanyards. Artwork needs to be supplied prior to quotation. Proofs are provided for approval before manufacture.

MATERIALS

Lanyards are available as satin ribbon or in three types of braid – fine braid, with a tight weave for very fine print; comfort braid, with a tight weave for screen print; or soft braid, with a coarser braid for standard print.

Length: 900mm average.

Widths: 10mm, 16mm and 25mm.

PRINTING TECHNIQUES

Two printing techniques can be used to brand or personalise lanyards or satin ribbons.

Dye-sublimation printing offers the highest-quality, most durable print, in any colour. **Screen printing** is the most cost-effective print method, placing the ink directly on top of the material.

With either method, the base material is always white, with the colour added during the printing process. Therefore, any two-colour combination which includes white is considered as one colour printing (ie, red lanyard with white text or white ribbon with green logo). Please refer to our price list for full options and prices.

ATTACHMENTS

The following attachments are available (shown above):

- 1 25mm and 30mm split ring
- 2 Spring clip
- 3 Spring clip with round metal toggle
- 4 Nickel dog clip with 10mm loop
- 5 Nickel dog clip with 19mm loop
- 6 Plastic dog clip
- 7 Nickel crocodile clip
- 8 Plastic crocodile clip
- 9 Single-use plastic strap with plastic poppers (shown open and closed)
- 10 Multi-use plastic strap with metal poppers (not shown)
- 11 10mm trigger hook (not shown)
- 12 19mm trigger hook (not shown)

Breakaway feature available on request with all flat lanyards.

Retractable card reels

Databac retractable badge reels – or ‘yoyos’ – are attractive and convenient for displaying all types of badges. These attachments ensure the card snaps back after swiping through a reader and can also be used for attaching keys or light tools. Two sizes are available: Classic (44.5mm diameter); and Mini (32mm diameter).

Fixtures

Databac yoyos can be attached to the wearer using a belt loop (Classic Yoyo 1), lever clip (Classic Yoyo 2) or belt clip (above).

CLASSIC YOYO 1

Code: YOYO-1 x (x=colour)
Attach to person using belt loop; attach to card with loop. 600mm retractable nylon cord. Colour codes: Bk=Black, W=White.

CLASSIC YOYO 2

Code: YOYO-2 x (x=colour)
Attach to person using lever clip; attach to card with loop. 600mm retractable nylon cord. Colour codes: Bk=Black, W=White.

CLASSIC YOYO 3

Code: YOYO-3 strap (or key)
Heavy-duty metal/plastic construction with reinforced cord. Attach to person using belt clip; attach to card with loop clip or with key ring.

Custom printing

Databac can pre-print most graphics in colour onto the front of the card reel. Printed labels or domes can also be attached to the front of the yoyo. Contact the sales team for full details of this service.

MINI YOYO 4

Code: YOYO-4 BI
Attach to person using belt clip; attach to card with clear loop clip. Tested to 180,000 pulls. Available in blue.

MINI YOYO 5

Code: YOYO-5 x (x=colour)
Attach to person using belt clip; attach to card with reinforced loop clip. Tested to 60,000 pulls. Colours: BI =Blue, Bk=Black, W=White.

MINI YOYO 6

Code: YOYO-6
Attach to person using belt clip; attach to card or keys with key ring. Tested to 60,000 pulls. Available in black only.

If you're security conscious,
